

Maritimity and habitability of large Mediterranean coastal cities

Maritimité et habitabilité des grandes villes littorales méditerranéennes

Maritimity and habitability : port development

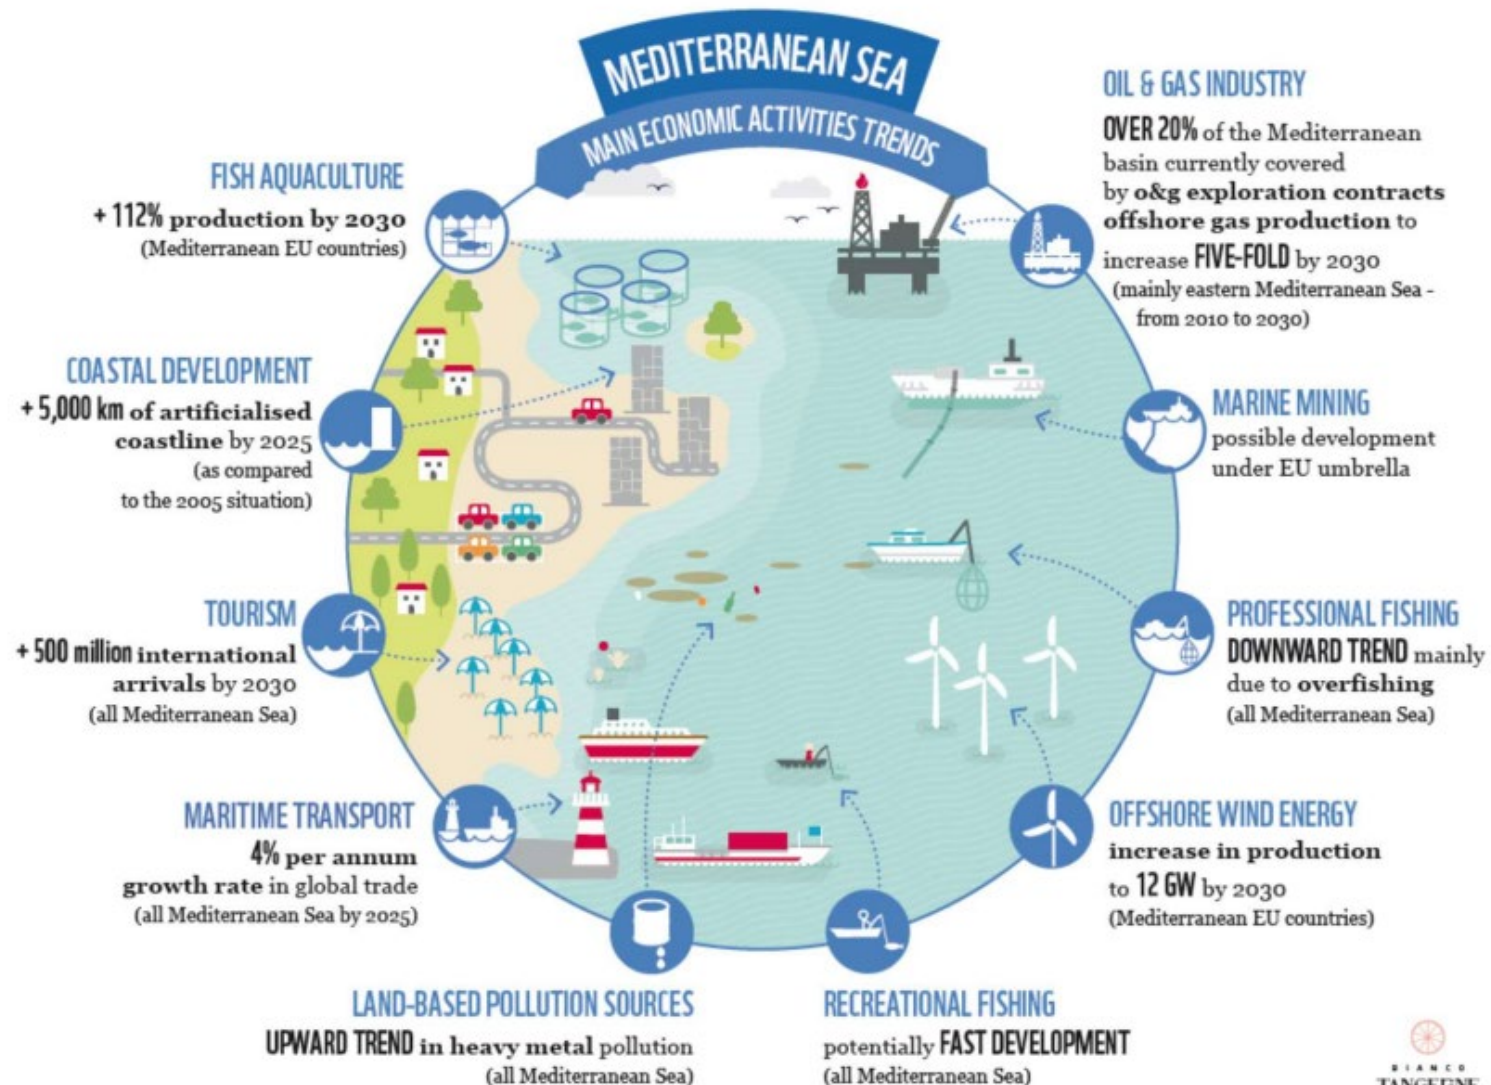

Maritimité et habitabilité sous l'angle du développement portuaire

Coordination : Antonio ACIERNO, University Federico 2 of Naples – Italy – *Architecture, urbanism*

- Fabien BARTOLOTTI, Aix-Marseille Université, TELEMME (UMR7303) – France – *History*
- Anouar HECHMI, Université de la Manouba, Tunis – Tunisia – *Geography*

PLANNING AND MANAGING THE COASTAL-MARITIME SPACE

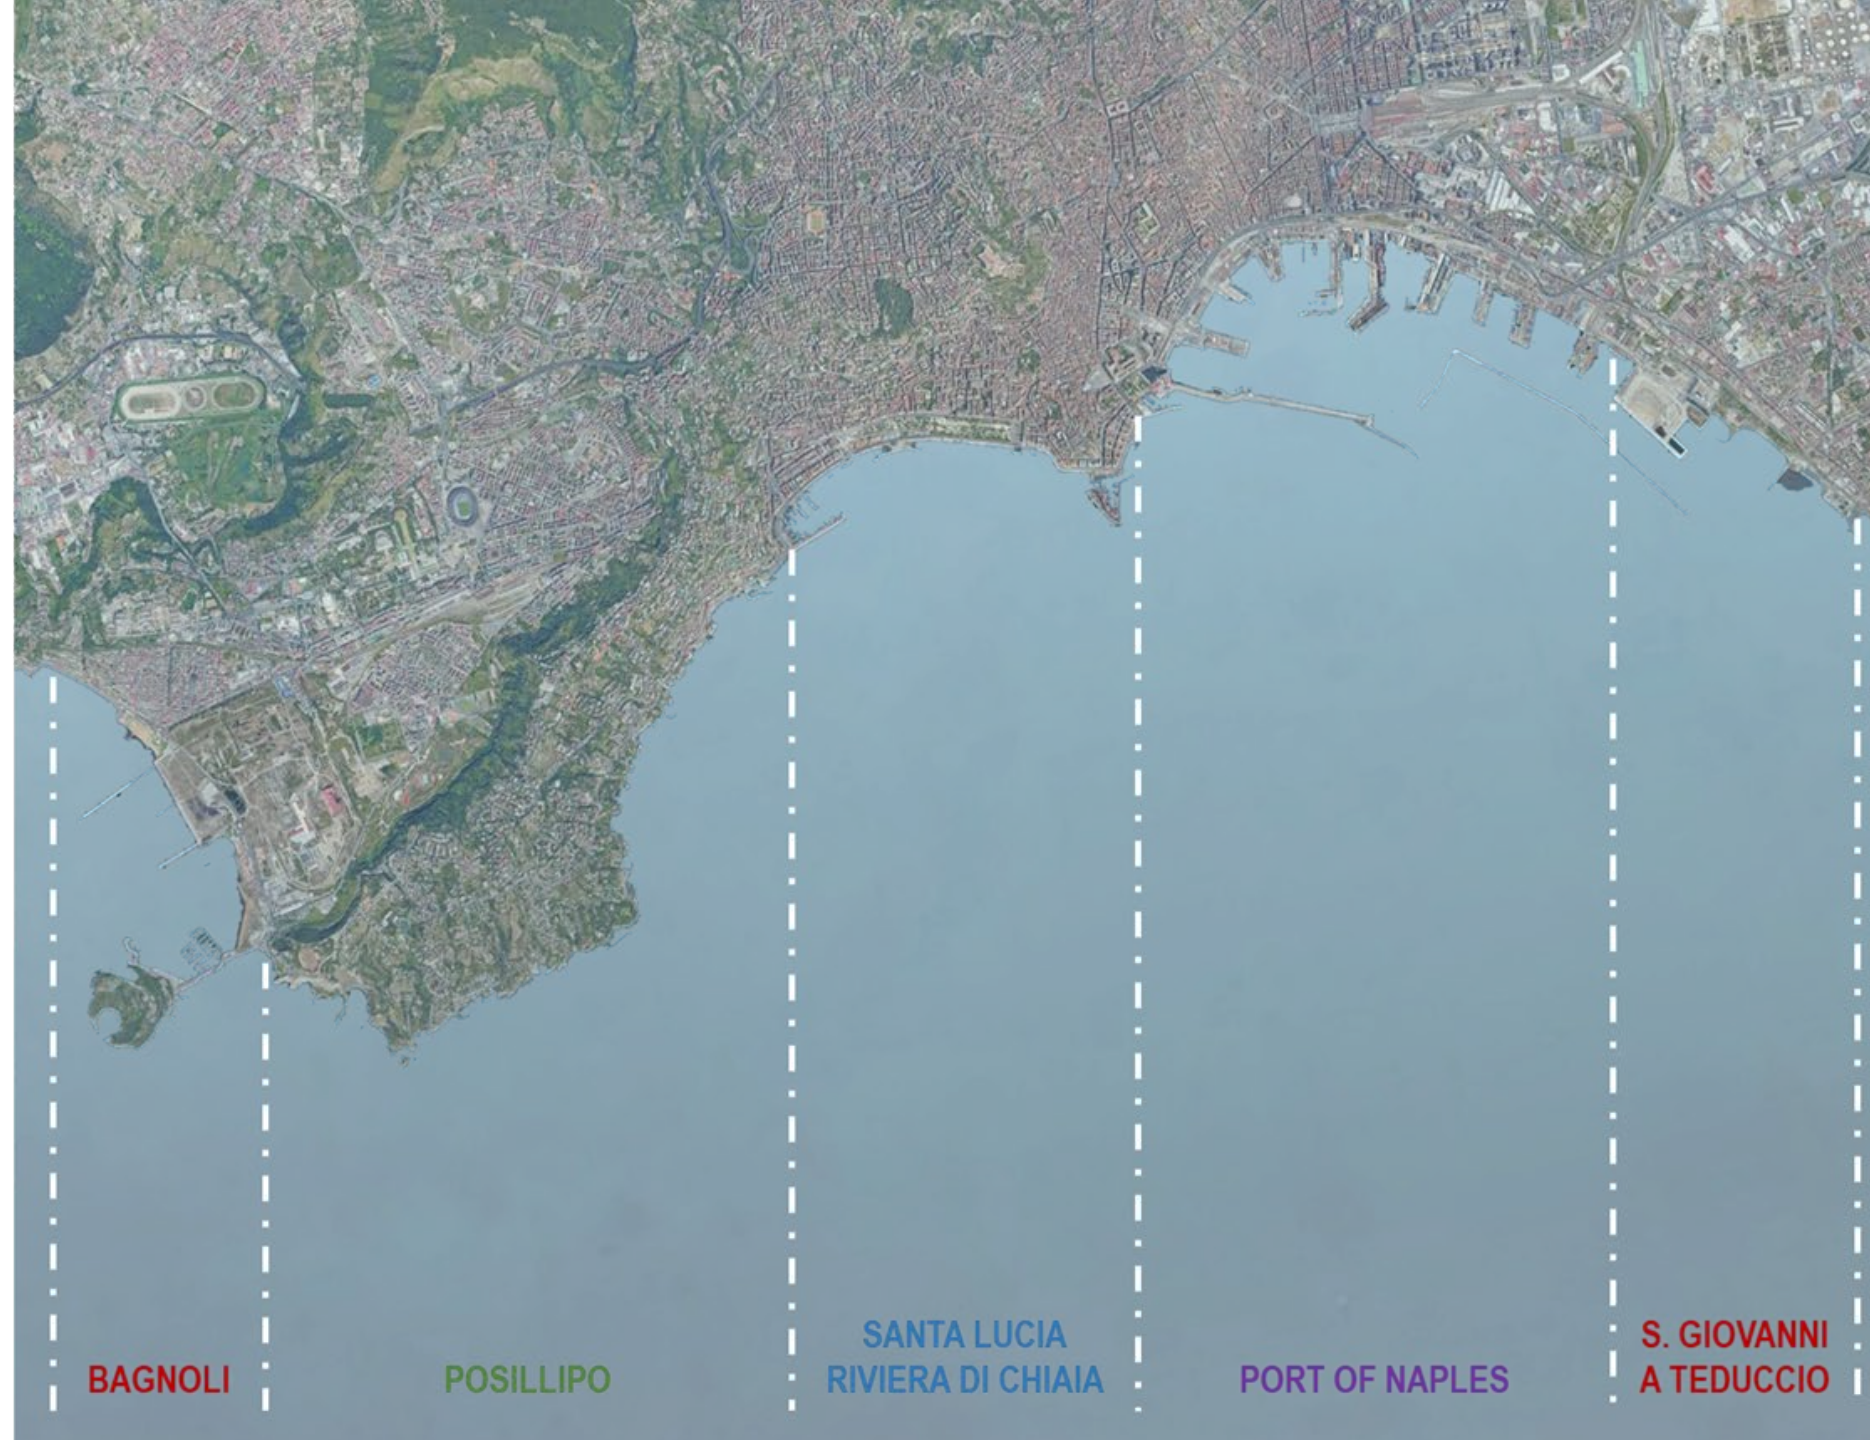

- **PORT AND HISTORY/IDENTITY**
- **PORT AS A «DOOR» TO THE EXTERNAL WORLD**
- **PORT AS A BARRIER FOR LOCAL COMMUNITY**
- **PORT AS ECONOMIC ENGINE**
- **PORT AS MAIN POLLUTION SOURCE**
- **PORT AS DEMAND OF CHANGE**
- **PORT WITH DIFFERENT GOVERNMENT (Port Authority)**
- **PORT AS PLACE OF CONFLICTS**

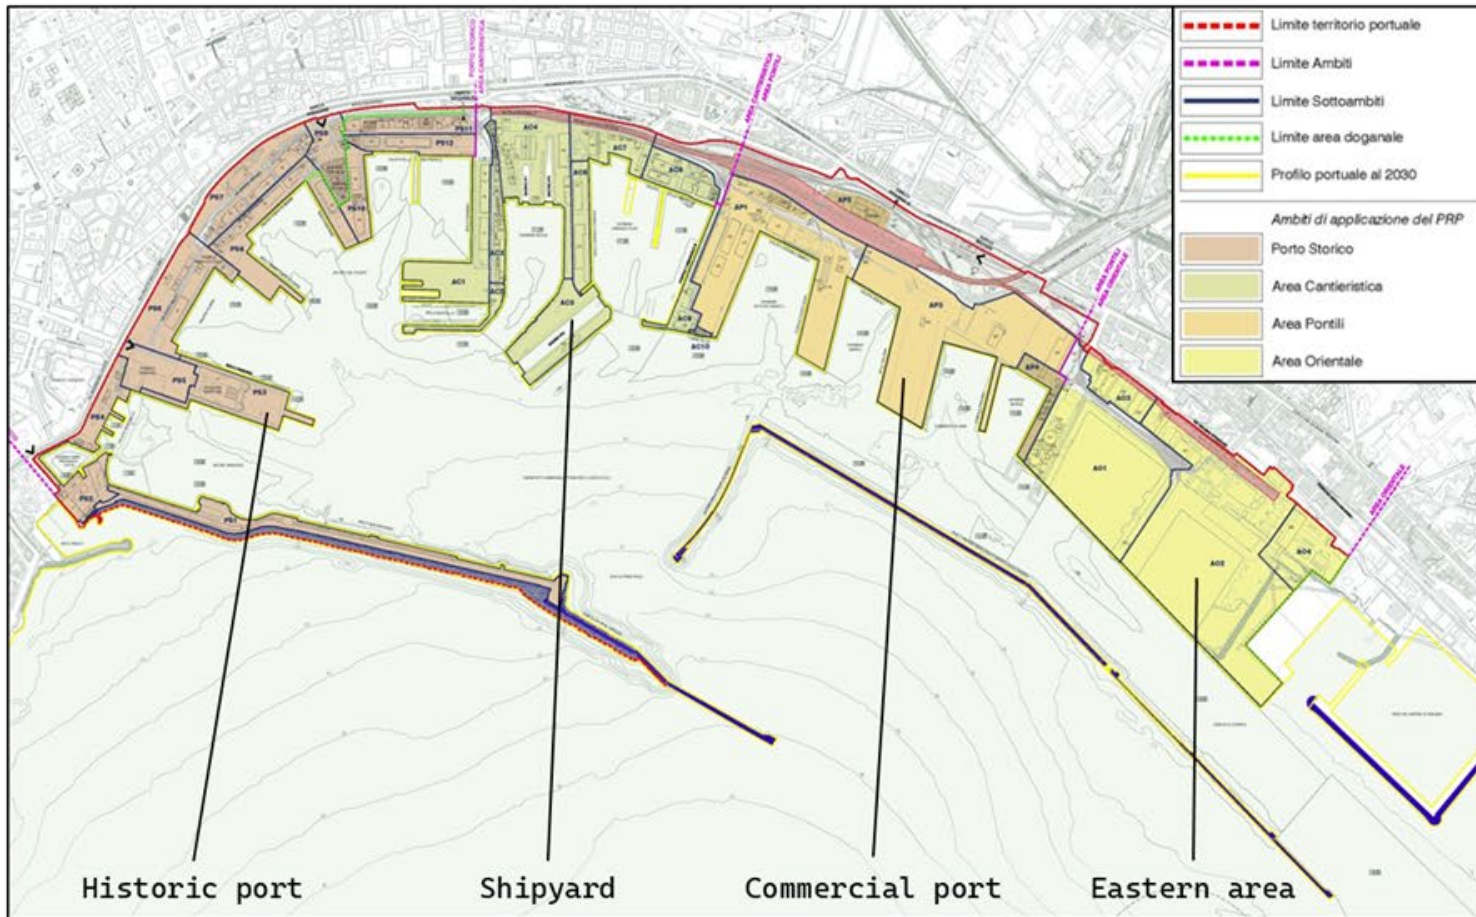

URBAN COAST OF NAPLES

Heterogeneous coastal strip characterised by its unequal accessibility to urban social and recreational spaces

1. Industrial-port areas in regeneration
2. Socio-recreational areas/urban beaches
3. Residential green areas
4. Active port area
